

Partners in Building Solutions

Denny Bauders
*Vice President,
Chief Financial
Officer (CFO)*

Responsibilities and Areas of Expertise

As vice president of finance and chief financial officer at Construction Systems Inc. (CSI), Denny is responsible for overseeing administration, accounting, finance, banking, insurance, group health, workers' compensation and employee benefits.

Denny joined CSI in 2001 after having served as CFO and Vice President of Finance for two Ohio construction-related companies. His professional history includes over 21 years of experience in the area of financial management. His broad-based skills give Denny the ability to oversee the financial aspects of the business including project cost control and financial performance modeling.

In addition to his role in the financial aspect of the business, Denny is the Safety Administrator. Interfacing with the Bureau of Worker's Compensation (BWC), the Safety Council of Greater Columbus and all CSI team members, Denny has led efforts for a drug-free workplace as well as safety and compliance on every job. CSI was recently recognized by the BWC and the Safety Council with three safety performance awards.
