

**Tom Pegan**  
*Project Manager*

### ***Responsibilities and Areas of Expertise***

As a project manager in the Specialties Division at Construction Systems Inc. (CSI), Tom is responsible for estimating jobs, reviewing project specifications, scheduling manpower, securing materials, and supervising projects through to completion.

Tom has a wealth of client service and project management experience and over the past 15 years has developed a particular expertise in Division 10 products. With a proprietary organizational system, Tom is able to service many highly-detailed projects simultaneously. Since 1996, clients have trusted that Tom's thoroughness and attention to detail will deliver a high quality job every time.
