

Mike Jones
Project Manager

Responsibilities

As Project Manager with the Facilities Group for Construction Systems Inc. (CSi), Mike is responsible for project development, project estimating and budgeting, scheduling and project management from pre-construction through project completion. He works primarily on the renovation of office and commercial facilities.

Mike joined CSi in 2018 with 17 years of construction industry experience. His experience includes general trades estimating, budgeting, client relationship development, project management, crew and subcontractor management, and employee development and training.

Mike's areas of expertise include carpentry, metal framing, drywall, insulation, acoustical ceilings, painting, and estimating software.
