Construction Systems Inc. Wins 2014 Build Ohio Award

November 17, 2014 – Columbus, Ohio – Construction Systems Inc. was awarded one of seven top statewide honors by the Associated General Contractors (AGC) of Ohio at the AGC's recent Build Ohio Awards gala.

The Associated General Contractors of Ohio recognized the seven contractors for excellence in construction of a project. Construction Systems Inc. won the *Build Ohio Specialty Under \$7 Million* category for the OhioHealth CareConnect Deployment project.

Build Ohio winners receive the prestigious bronze and green marble Build Ohio statue. All of the award winners were announced for the first time during the Build Ohio Celebration, held on Friday, November 14, 2014 at the Hilton Columbus Polaris. Over 300 construction professionals and guests attended the gala.

A panel of retired construction professionals selected Build Ohio winners based on the following criteria: performance as it relates to schedule; client service excellence; meeting the challenge of a difficult job; craftsmanship; and innovations in construction techniques and materials.

CSi's winning entry was the OhioHealth CareConnect Deployment Phase 1 & 2. CareConnect transformed OhioHealth's entire electronic patient information operating system. CSi's work on the project included relocation of computer monitors, electric and data service, cabinetry and other equipment at numerous worksites across several hospitals and medical office buildings. Nearly all wireless electronic devices were replaced with hard-wired equipment which required new wiring and fixed computer arms. Much of the work was completed at night to minimize disruption of patient care.

This is the fourth Build Ohio Award that Construction Systems Inc. has won in the AGC Ohio program.
